

Privacy Statement for Google Drive Integration

The itslearning platform provides an integration with Google Drive to allow users to seamlessly transfer files between Google Drive and our platform. To facilitate this integration, we require access to certain Google Drive data, which we handle with the utmost care and in compliance with data privacy regulations.

How We Use Your Google Drive Data

- **Access Scope:** We request access to files in your Google Drive strictly for the purpose of facilitating the transfer of selected files or links to these files to our platform. We do not request or store permissions to view, modify, or delete any files beyond those you choose to upload or link.
- **Data Usage:** The files you transfer are used exclusively to support services provided by itslearning and are not shared with other third parties without your consent, except if required by law. Your data is not used to develop, improve, or train generalised AI and/or ML models.
- **Data Storage:** Files users select as assignment answer are transferred from Google Drive and stored on our secure servers for processing according to the terms of use on our platform. We retain these files only as long as necessary to fulfil the purposes outlined in our Terms and Conditions.
- **Data Security:** We are committed to protecting your data. Our platform uses encryption and security protocols to safeguard file transfers and ensure your Google Drive data remains confidential and protected.

Your Consent

By connecting your Google Drive to our platform, you consent to the collection, use, and storage of your data as outlined in this Privacy Statement. If you wish to discontinue the integration, you may revoke access through your Google account settings.

For more details on our general data practices, please refer to our Privacy Policy
